Benefits

- Provides you with competitive state-of-the-art products for merchant retention and growth.
- Saves you time and money. WSCS negotiates the agreements and creates the partnership with the provider, thus...
- Eliminating your financial institution's monthly minimum volume requirements.
- Eliminates the legal expenses associated with negotiating direct contracts with suppliers.

Wireless Options

WSCS's wireless options enable your merchants to process retail credit card transactions as fast as cash, without the inconvenience and cost of being tied to a telephone line or electrical outlet. Merchants using wireless solutions can realize greater sales, efficiency and convenience. We have partnered with First Data Corporation, TNS, and Cingular to ensure that your merchants have the most state-of-the-art options available to them.

Target Markets for Wireless Include:

- *Remote merchants*
- *Mobile merchants*
- *Quick service merchants*

Specialized Software

Numerous 3rd party applications are supported for retail, restaurant, hotel, debit, EBT, auto rental, supermarket, petroleum, PC Hub, Internet, Electronic Check Acceptance and Wireless transactions.
